Product Specific Properties:

- modern and fresh colour palette
- woolly and soft grip
- suitable for both fitted and loose fitting upholstery
- articles containing wool are more prone to pilling
- these fibres can be easily removed with a fluff comb or an electrical pilling device

Information about the Productgroup:

Flat-woven fabrics are woven fabrics formed by 2 thread groups crossing at right angles to each other. The closer the threads are to each other, the higher the density and the heavier the fabric will be. Furthermore, the thickness of the threads is also of importance as regards the construction and the weight of the fabric.
