

## Guard

### Guard

# Guard is a nice and luxurious high-quality fabric, woven on a dolby loom and part of the Textaafoam Performance Collection.

This collection only consists of fabrics that meet the highest standards in durability and maintenance, making them long lasting, easy to clean and suitable for almost every type of upholstery.

Due to the properties of the yarns used for Guard, stains hardly have any chance and can easily be taken away with nothing more than a damp cloth. No wonder this article meets all requirements of our specialty Easy Clean Collection; www.picobello-fabrics.com.

This luxurious fine woven textile meets every style and is suitable for fitted and loose fitting upholstery. The chenille provides an extra soft handfeel and it has a full and rich appearance.

Please kindly note that due to these chenille yarns, shading and sitting mirror (seat depression) will appear, this can be minimized by brushing the fabric regularly or vacuum clean (low power) with an upholstery nozzle with and against the pile. This is a property of these kind of qualities and has no influence on the durability of this fabric.

Guard can be washed at 30 degrees (machine).

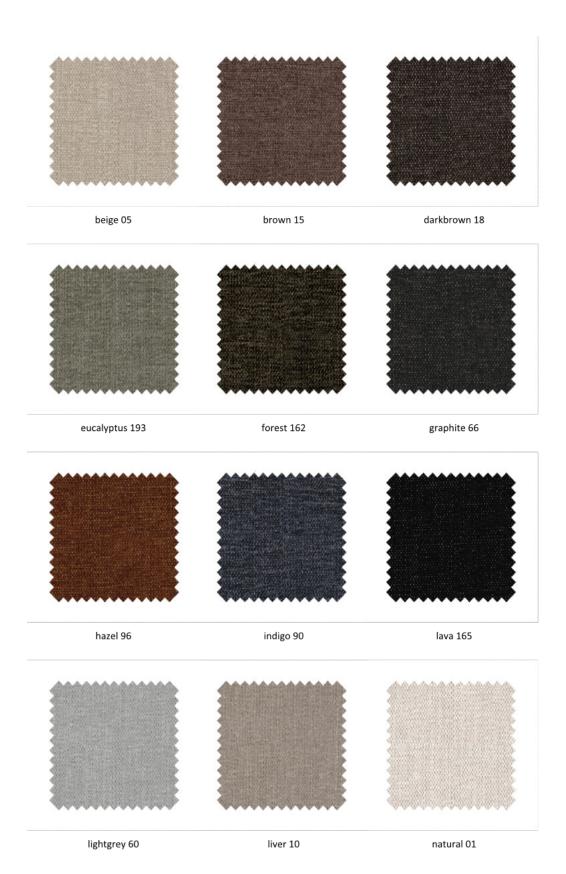

- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture slightly damp after washing

**Textaafoamoriginals** Established in 1970,this Dutch family business brings together craftsmen in textiles and furniture design to build an unrivalled portfolio in upholstery fabrics that meets buyer □s needs everytime. Featuring a wide colour range, ultimate value for money and excellent reliability in the supply chain.
